

Look for the quality label

The name TEFLON® is synonymous with quality the whole world over, and we are proud of its excellent reputation. This is why we rigorously control its use, to make sure that when you buy clothing treated with TEFLON®, it will be effectively protected against water and stains. It's your assurance that the garment has been professionally treated to the exacting standards set by DuPont.

TEFLON® – invisible protection that makes your life easier

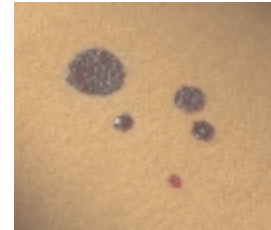

Whether to keep you dry in the rain, or to protect you against the spills and accidents of everyday life, you can rely on TEFLON®. This advanced fabric treatment from DuPont protects your favourite clothes from rain, dirt and stains, invisibly. It doesn't affect their look, breathability, colour or feel at all – and it's so easy to care for.

From silk ties to rugged anoraks

TEFLON® can be applied to all kinds of fabrics, from the finest silk to the hardest wearing cottons; on suits, jackets, skirts, trousers, ties, tracksuits, raincoats and even on the toughest adventure wear.

On outdoor apparel, TEFLON® provides maximum water repellency, so you stay dry longer. And oil, coffee and other common stains are a thing of the past with a garment treated

Untreated

Treated with
TEFLON® Fabric
Protector

How does it work?

TEFLON® works by surrounding each fibre with an invisible barrier so the fabric no longer attracts dry soiling or soaks up wet stains. In fact, water simply runs off treated fabrics, and oil-based spills bead-up on the surface, so all you have to do is blot them up. Peace of mind is that easy!

TEFLON® is safe, gentle and yet effective. It is water-based, CFC-free and doesn't harm the environment.

with TEFLON®. It even protects a wide range of household fabrics such as upholstery, curtains, bedding, carpets, tablecloths and garden furniture.
