

OUTDOOR AND SPORTSWEAR HAVE AN INSEPARABLE GREEN FRIEND

DYE FREE technology involves **colouring the fabric by hot transfer** without immersion in water, **avoiding waste** and the **emission of dyes**. This means minimizing the environmental impact.

- Honeycomb polyester fabric
- Efficient use of water resource
- Minimized use of chemicals, energy and reduced CO2 emissions
- PVC patterned closure. Part under the closure in soft PVC
- Cotton sweatband for maximum comfort
